EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Merrick on 4 December 2007.

The application has been amended as follows:

Please cancel claims 19-32, 34-35 and 37-38.

Election/Restrictions

2. Claims 1-3, 7-9, 11, 13-18, 33, 36 and 39 are allowed. The restriction requirement between Species 1, 2, 3 and 4, as set forth in the Office action mailed on 9 March 2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 4-6, directed to Figures 4A-4C are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims

19-32, 34-35 and 37-38, directed to converting image signals remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

3. Claims 1-9, 11, 13-18, 33, 36 and 39 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of the independent claims is the inclusion of the limitation "wherein the second line width of the second portion of at least one of the gate lines and the data lines of the white pixel is larger than the width of other portions of the respective gate and data lines of the color pixels", which is not found singularly or in combination within the prior art.

The closest prior art references (Kawano et al., Tsutomu, Yoshida et al.) fail to teach that the line width around the white pixel is different from the line width around the color pixels. While the references do teach of line widths being different for each respective line, the lines are all the same for every pixel. Thus, even in an RGBW configuration, the white pixels cannot be said to have different line widths than the red, green and blue pixels. Therefore, the prior art does not teach the claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen G. Sherman whose telephone number is (571) 272-2941. The examiner can normally be reached on M-F, 8:00 a.m. - 4:30 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amr Awad can be reached on (571) 272-7764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
